Dr. Saxena you did well. I enjoyed specifically environmental prevention of Ca by Prof. Girish Kumar, Shri B. Kalyan Chakravarthy, IAS, DG, EPTRI, Dr. Francis as usual full of energy. I would have loved I more if he has presentation.

At least more details on dosages on treatment part of it, of course he explained regime but more details expected from him to understand me. Dr. Milliben as usual good batsman. In overall Integrative part is really good idea to follow.
